

All children love writing stories based on their own characters and settings. All good stories have a problem and a solution! Use the 'Tales Toolkit' worksheet as a template for planning your own fantastic story.

Monday 22nd March – Draw your main character in this box, remember to include as much detail as possible in your picture. Your character could be real or made up e.g. you or Superman!

Can you write the character's name underneath?

Character

Now can you write some sentences describing your main character? Use as much detail as you can! Please do this on the 'my story' template. This character description will be the beginning of your story.

Tuesday 23rd March – Where is your character? Are they at home or have they taken a trip? What can they hear, see, smell, do, touch? What is your character doing here? Can you draw the setting in this box?

Now continue your story on the 'my story' worksheet. Write some sentences describing your story setting in as much detail as you can. If I close my eyes I want to be able to picture your setting in my mind!

Setting

Wednesday 24th March – Oh no there's a problem! What's the problem? Who is the problem? Is the problem big or small? Is it noisy or quiet? Is it moving or still? Can you draw the problem in this box?

Now continue your story on the 'my story' worksheet. Write some sentences describing the problem in as much detail as you can.

Problem

Solution

Thursday 25th March – Let's find a solution to end our story! How can we help our character solve their problem? Is it going to be a happy ending or not.? Is a person or object going to be the solution? Can you draw the solution in this box?

Now finish your story on the 'my story' worksheet. Write some sentences describing the solution in as much detail as you can.

Now share your story with your friends and family 😊
