

Keep Swimming

I can use number bonds within 10 to make numbers 15 and 16.

With a partner, use your 10 frame and Dienes or counters to work out the number bonds to 5 and 6 then 15 and 16. Write them down.

Start with:

$$0 + 5 = 5 \quad \text{so} \quad 10 + 5 = 15 \quad \text{and} \quad 0 + 15 = 15$$

$$1 + 4 = 5 \quad \text{so} \quad 11 + 4 = 15 \quad \text{and} \quad 1 + 14 = 15$$

Draw the missing number.

Fill in the missing numbers:

$$15 = 5 + \square$$

$$3 + 13 = \square$$

$$\square = 12 + 4$$

$$10 + \square = 15$$

$$3 + 13 = \square$$

$$12 + \square = 16$$

Go Deeper

I can use number bonds within 10 to make numbers 15 and 16.

Use your 10 frame and Dienes or counters to work out the number bonds to 5 and 6 then 15 and 16. Write them in your book.

Start with:

$$0 + 5 = 5 \quad \text{so} \quad 10 + 5 = 15 \quad \text{and} \quad 0 + 15 = 15$$

$$1 + 4 = 5 \quad \text{so} \quad 11 + 4 = 15 \quad \text{and} \quad 1 + 14 = 15$$

Fill in the missing answers.

Alex says:

$$16 - 9 = 7$$

Amir says:

$$16 - 10 = 7$$

Who is right? Prove it.
