

Monday's Challenge

How many addition and subtraction sentences can you write using the digit cards?

What is the largest total you can make?

What is the smallest total you can make?

Thursday's Challenge

Use $<$, $>$ or $=$ to compare these addition sentences.

$$4 + 0 \quad \square \quad 2 + 2$$

$$3 + 2 \quad \square \quad 4 + 0$$

$$2 + 4 \quad \square \quad 3 + 3$$

$$5 - 2 \quad \square \quad 3 - 0$$

Now write some of your own.

Tuesday's Challenge

Number Bond Puzzles

Is this always, sometimes or never true?

All number bonds have 2 different numbers added together.

Prove your answer with examples.

Remember to use number bonds within 5 to help you.

Friday's Challenge

Use $<$, $>$ or $=$ to compare these addition sentences.

$$7 + 0 \quad \square \quad 4 + 3$$

$$3 + 2 \quad \square \quad 6 + 1$$

$$5 + 2 \quad \square \quad 3 + 3$$

$$7 - 2 \quad \square \quad 6 - 1$$

Now write some of your own.
