

Home Learning: Y1 Autumn Term 2

Weeks commencing: 8th November and 15th November 2021

These activities are designed for children who are learning at home due to self-isolation. The maths and phonics overviews will be on the Home learning tab as separate subjects.

In school, this fortnight we will be beginning our topic on 'Toys'.

We appreciate that you will be trying to balance your own home-working alongside home-schooling, therefore, we suggest that your child completes this week's maths and phonics and also enjoys choosing topic activities from this page at times to suit you. Please remember to upload any work onto your child's Tapestry account for feedback and celebration.

Science	Watch the video; How magnets on a Brio train work; https://www.youtube.com/watch?v=Fo1t430MeH4. If you have some Brio at home can you build a train track? Can you explain how the track fits together? How do the trains connect? You may have a magnet at home. Can you sort your toys into two groups? Those that are magnetic and those that are non-magnetic? If you have a magnetic toy at home can you build us a model.
Computing	https://www.purplemash.com/#app/pup/toys_Pairs_weekly Can you find the matching pair of toys? https://www.purplemash.com/#tab/paint_projects_toys Can you paint the toys? Please log onto Purple Mash using your usual username and password.
Art	Prepare four beakers of coloured water using watered down paint. Prepare one beaker red, one beaker yellow, one beaker blue and one beaker black. Have four empty beakers and a teaspoon. Can you practise your colour mixing skills by tipping and mixing a small amount of 2 colours into an empty beaker? What colours can you create? Have fun getting messy!

	If you have some Lego/Duplo at home can you use it to print with? Can you make a picture with a regular or irregular pattern? How many different size bricks can you use? How many different colour paints can you use? Can you complete the toy lacing cards? Before you begin you will need to use a hole punch to create threading holes in each card. You can thread using shoe laces, ribbon or string.
RE	Read 'Jesus heals the sick'. Using the pre-prepared set of stick puppets act out the story. Can you and your family members play the different parts?
History	Choose your favourite toy. Can you tell a family member all about it? What it is? Does it move? Does it need batteries to work? What is it made from? Draw a detailed picture of your favourite toy. Write some captions or sentences about your favourite toy. If you have some Lego at home can you build a toy? You could try and build a toy robot, a toy boat, a toy car or a toy dinosaur. How many different toys can you build? Use the 'Toys writing activity' sheet. Can you write some captions or sentences about the toys in the toy shop? Enjoy listening to these stories about toys. You may even have the stories at home, so you could share them at bedtime; https://www.bbc.co.uk/iplayer/episode/b06t09rk/stick-man (<i>Stickman</i> by Julia Donaldson) https://www.youtube.com/watch?v=RkjQe6Gz1Ak (<i>The Everywhere Bear</i> by Julia Donaldson) https://www.youtube.com/watch?v=jwqxd4SfNcw (<i>Not a Stick</i> by Antoinette Portis)
