

## Keep Swimming

I can add a ten to a two-digit number.

Dani has some balloons.

How many balloons does Dani have?

She buys one more bag of balloons.

How many balloons does Dani have now?

Draw the Base 10

| Number | 10 more |
|--------|---------|
|        |         |
| 12     | 22      |
|        |         |
| 37     |         |

Draw these numbers in Base 10 then add another 10.  
How many have you got now?

18, 45, 72, 49, 88

- $\square + \square = \square$
- $\square + \square = \square$
- $\square + \square = \square$

## Go Deeper

I can add a ten to a two-digit number.

Draw these numbers in Base 10 then add another 10.  
Draw them now and write the answer.

18, 45, 72, 49, 88

The cost of each piece of fruit has gone up by 10p.

15 p

22 p

35 p

68 p

Complete the new price tag and draw the coins to pay for each one.

Complete the missing numbers

$$23 + 10 = \square$$

$$10 + 77 = \square$$

$$33 + \square = 43$$

$$\square + 67 = 77$$

$$\square + 10 = 53$$

$$10 + \square = 67$$
