

Hello everyone.

We are approaching the end of term and Easter is nearly here! The daffodils are out and the birds are tweeting. The Easter bunny is getting ready with the Easter eggs.

This week we are looking at Easter and how we celebrate it. Here are the activities for the week. We have split them into different areas of learning. Remember, they can be done in any order that you like.

PSED	This week we are looking at the book <i>The Easter Egg</i> by Jan Brett. It is a story about a bunny who is kind and brave.  Here is a link to the book on YouTube https://www.youtube.com/watch?v=tN0o3043mDQ Hoppi wasn't sure if his egg was going to be good. He decided to keep trying and to make an egg he was proud of. Sometimes in nursery we find things hard and we feel worried that we can't do something. It might be cutting, drawing, hopping or riding your bike. Talk to your grown up about things you find tricky. You might want to draw a picture. See if you can practice whatever it is you find tricky with your grown up.
Physical Development	Have you got a spoon and some hard-boiled eggs? Can you have an egg and spoon race with your grown up? You might even want to do some egg rolling. How far will it roll? 

Literacy	This week we would like you to write your own Tales Toolkit story using things you have at home. You will need to choose a character, a setting, a problem and a solution. You might want to choose something related to Easter like Peter Rabbit or maybe even Peppa Pig. What does your character like to do? Where are they? Who, or what is the problem? What is the solution? Ask your grown up to divide your paper into four squares so that you can draw your story. Or you might want to act it out with things you have at home like dolls, material and toys.
Maths	Easter is the perfect time to make some chocolate Easter nests! You will need some chocolate, some corn flakes and some mini eggs to decorate. With your grown up you can melt some chocolate. How has it changed? What happened to make it change? It was a solid and now it has melted it has turned into a liquid. Mix the chocolate into the cornflakes and spoon the mix into bun cases. Can you count as you do it? You will need to decorate with some mini eggs and maybe even some chicks. How many Easter nests have you got? Enjoy!
Understanding the World	We are looking at baby animals. There are lots of baby animals in spring time and they all have different names. Have a look at the baby animals PowerPoint. Did you learn anything new?
Expressive Art and Design	Can you draw an oval shape? An egg is an oval shape. It is a bit like a circle but rather than being round, it is a bit pointy at one end. Have a look at a circle and an oval and see if you can see the difference. Now, can you decorate your egg? You might want to use paint or pens or you might have lots of things at home that you might want to stick on. Have fun decorating your egg!

We hope you all stay safe and well and we look forward to seeing you back in nursery very soon!

Mrs Pocklington, Mrs Nash, Mrs Easter, Mrs Green and Mrs Barnes
